

This sets title & characters . will rotate characters & randomize titles

```
!settitle{!rotate{|™|#|$|%|&}
!random{QUALITY HOUSE CLEANING MOST HOUSES $60|
? House Cleaning at a price you will Love |
?? House Cleaning|

Meticulous detail oriented personalized house cleaning|
Awesome House Cleaning Services!!!! >>>>>>><<<<|
House cleaning the way you like it/Affordable and good|
Quality House Cleaning at Great Rates!|
Affordable House Cleaning at Very|
experienced house keeper}}
```

This (|) is very important in the software. It tells the software to load only the info one line at a time

We generate tons of randomized titles using the Title Creator Software

This is the beginning of the body of your add

We separate each line by either one or two (
) breaks

```
Need a Clean house?
<br><br>Small Family Owned family Crew
<br><br>we will clean fast
<br><br>we treat your house like our own!
<br><br>Free Estimates!
<br><br>License and Bonded
<br><br>Locally owned>>>>>>>>
<br>
>>>>>>>>One Day Service
<br>
>>>>>>>>No need to call the competition!!!
<br>
>>>>>>>>Let us do it today!!!!!!
<br>
>>>>>>>>Friendly Service.....
```

This (}) is very important. It tells the software that this is the end of the title section

You may add additional items to the body as above or add content that rotates for every add posted to make it more unique by adding !rotate| to the beginning

```
!rotate{www&#10084;thecleanhouse&#10084;com|
www&#9619;thecleanhouse&#9619;com|
www&#9608;thecleanhouse&#9608;com|
www&#9734;thecleanhouse&#9734;com|
www&equiv;thecleanhouse&equiv;com|
www&#9786;thecleanhouse&#9786;com|
www&#9654;thecleanhouse&#9654;com|
www&#9664;thecleanhouse&#9664;com}
```

Then ending section with (})

We next add these breaks (
) to create space between the body and additional random geo targeted text phrases

```
<br><br>
<br><br>
<br><br>
<br><br>
<br><br>
<br><br>
<br><br>
<br><br>
<br><br>
```

Next we rotate our geo targeted text phrases to make our ads more searchable. We use our GEO keyword content generator to create these.

```
!rotate{House Cleaning San Antonio San Marcos TX |Fast House cleaning San
Antonio San Marcos TX |
Affordable House Cleaning San Antonio San Marcos TX |one day house cleaning
San Antonio San Marcos TX |
Cheap house cleaning San Antonio San Marcos TX |Low Cost house cleaning San
Antonio San Marcos TX }
```

Now we load our CL account and password as shown if you have a proxy it will look like this: !login{hcnw@gmail.com|45hc}|!proxy{108.186.244.213:3128}}

If you are in a section that has a price and you want to add a price, do it like this

```
!price{!rotate{$60|60|$60.00}}
```

We can add images to be rotated. We pull images from the file on computer. You may have one image file !file1{} or multiple files.

```
!file1{C:\HC\!rotate{hc1.jpg|hc1b.jpg}}
!file2{C:\HC\!rotate{hc2.jpg|hc2b.jpg}}
!file3{C:\HC\!rotate{hc3.jpg|hc3b.jpg}}
!postal{!rotate{78214|
78211|
78235|
78222}}
```

Now we rotate zip codes like this
